

## Back-to-School Guide

## ROUNDUP!

## Cool School Lunch Bags

The **Beach Insulated Lunch Sack** impressed us with its roomy, simple-to-rinse, quick-dry interior. Yet it was the ecofriendly exterior — made from 100 percent recycled bottles — that scored the highest marks with our testers. *Ages 3 and up / Kids Konserve / \$21*

Parent testers loved how the two insulated, easy-to-clean pockets in the **Balanced Day Lunch Kit** kept snacks separate from meals, or hot foods from cold. The handy elastic straps in each compartment hold drinks or ice packs in place (no more smushed sandwiches). Available in 12 designs.

*Ages 3 and up / Balanced Day Lunch Bags / \$13 to \$17 each*

## Fun Flash Drives

We're enamored with the plethora of funky flash drives that are available now. They're a great way to transport projects between home and school, especially since they're so easy to spot in a backpack! Here are some of our favorites. — Ruth Spiro

Penguin:  
2GB / \$13
